Bass Cabinet

Please read this user's guide prior
to using your new enclosure.

Ampeg SVT412HE 4x12 Bass Cabinet

Your Ampeg SVT412HE 4x12" Bass Cabinet is a high quality two-way speaker enclosure suitable for all venue sizes.

The cabinet features heavy duty recessed handles, and removeable casters.

The Speakon® and 1/4" jacks are wired in parallel, allowing easy daisy chaining from one speaker to another. Each of the jacks may be used as an input or a through connection.

Speakon® connectors are recognized as the standard for professional installations, assuring a secure, permanent connection that won't corrode, vibrate loose or be easily tampered with. The 1/4" jacks are convenient. However, the Speakon® jacks are recommended when using power amplifiers over 150 watts, for permanent installations, or for the first enclosure among a number of daisy chained enclosures.
