SVT-4Pro Footswitches

Question: What footswitch can I use with my SVT-4Pro?

Answer: For EFFECTS BYPASS, you can use a single-button latching footswitch like the AFP-1. For GRAPHIC EQ/MUTE, you can use a two-button latching footswitch, like our very own AFP-2. OR you can use the AFP-3 (3-button latching footswitch) to control EFFECTS, EQ, and MUTE!
